Item 2.02 Results of Operations and Financial Condition.

On July 11, 2019, Flux Power Holdings, Inc., a Nevada corporation (the "Company") issued a press release in which it disclosed its preliminary revenues and gross profit margin for the fourth quarter and fiscal year ended June 30, 2019. A copy of this press release is furnished herewith as Exhibit 99.1.

Pursuant to the rules and regulations of the Securities and Exchange Commission, such exhibit and the information set forth therein and in this Item 2.02 have been furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to liability under that section nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing regardless of any general incorporation language.

Item 3.03 Material Modification to Rights of Security Holders.

The information contained in Item 5.03 of this Current Report on Form 8-K is incorporated herein by reference.

Item 5.03 Amendments of Articles of Incorporation; Change in Fiscal Year.

On July 9, 2019, the Company filed a Certificate of Change (the "Certificate") with the Nevada Secretary of State of Nevada to effectuate a reverse split of the Company's common stock at a ratio of 1 for 10 (the "Reverse Split"). The Reverse Split became effective on July 11, 2019 at 6:00 pm (EST) ("Effective Date"). Beginning with the opening of the market on July 12, 2019, the Company's common stock was quoted on the OTCQB under the symbol "FLUXD" on a post Reverse Split basis under a new CUSIP number 344057 302.

On the Effective Date of the Reverse Split, every 10 pre-split shares of common stock outstanding was automatically combined into one new share of common stock without any action on the part of the holders and with no change in the par value per share of \$0.001. In addition, all options, warrants, and any other similar instruments convertible into, or exchangeable or exercisable for, shares of common stock were proportionally adjusted to reflect the Reverse Split. The Reverse Split also proportionately reduced the number of authorized shares of common stock and authorized shares of preferred stock. All fractional shares of common stock were rounded up to the nearest whole share. No fractional shares were issued as a result of the Reverse Split. Holders of fractional shares outstanding after the Reverse Split received one full share of post-Reverse Split share.

The Reverse Split reduced the number of shares of the Company's outstanding shares of common stock from approximately 51 million pre-Reverse Split shares to approximately 5.1 million post-Reverse Split shares.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to the complete text of the Certificate, which is attached hereto as Exhibit 3.1 and incorporated herein by reference.

Item 8.01 Other Events.

On July 11, 2019, the Company issued a press release with respect to the Reverse Split. A copy of the press release is attached hereto as Exhibit 99.2, and is incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.

Flux Power FY 2019 Net Revenues Expected to Rise over 115% to Approximately \$9 Million Driven by Record Q4 Net Revenues

Vista, CA – July 11, 2019 -- Flux Power Holdings, Inc. (OTCQB: FLUX), a developer of advanced lithium batteries for industrial applications including electric forklifts and airport ground support equipment (“GSE”), today announced preliminary results for its fiscal 2019 fourth quarter (Q4 ‘19) and year ended June 30, 2019. Flux expects to report final fiscal 2019 fourth quarter and year-end results in September 2019.

- **Q4 ‘19 Net Revenue Expected to Rise over 170% to a New Record** - Flux announced that it expects Q4 ‘19 net revenue of approximately \$3.0 million, an increase of over 170% compared to Q4 ‘18 net revenue of \$1.1 million and a new quarterly record. Flux Q4‘19 net revenues benefitted from increased sales of lithium-ion battery packs across Flux’s entire product line, including GSE, Class 1, Class 2 and Class 3 End Rider and Walkie LiFT Packs.
- **FY 2019 Net Revenue Expected to Rise 115% over FY 2018** - Flux expects its fiscal 2019 net revenue to increase by at least 115% to approximately \$9.0 million, compared to \$4.1 million for FY 2018. This growth in net revenue resulted primarily from Flux’s expanded product line, increased sales of new and existing products to current customers as well as sales to new accounts during FY 2019.
- **Expected to Achieve Positive Gross Profit Margin for Q4 ‘19 and FY 2019** - Flux expects to report positive gross profit margins for both Q4‘19 and its full fiscal 2019 year, compared to negative gross profit margins in the respective FY 2018 periods.

Flux Chairman and CEO, Ron Dutt, commented, “Flux continued to expand its base of products, customers and industry relationships in fiscal 2019, contributing to our expectations for record net revenues and the achievement of positive gross margins margins in both the fourth quarter and full year of fiscal 2019.”

“We look to build on this record in fiscal 2020 and to support our expected growth we recently moved into a new 60,000+ square-foot headquarters facility in Vista, CA, more than triple the size of our previous facility.”

This release contains projections and other "forward-looking statements" relating to Flux's business, that are often identified by the use of "believes," "expects" or similar expressions. Forward-looking statements involve a number of estimates, assumptions, risks and other uncertainties that may cause actual results to be materially different from those anticipated, believed, estimated, expected, etc. Such forward-looking statements include the Company's expected net revenues and gross profit margin for fiscal year ended June 30, 2019, the development and success of new products, projected sales, the Company's ability to timely obtain UL Listing for its products, the Company's ability to fund its operations, distribution partnerships and business opportunities and the uncertainties of customer acceptance of current and new products. Actual results could differ from those projected due to numerous factors and uncertainties. In addition, the Company's expectations with respect to our net revenues and gross profit margin for the fiscal year ended June 30, 2019 are based upon management estimates for the period. The Company's expectations are subject to the completion of its financial closing procedures and any adjustments that may result from the completion of the audit of its consolidated financial statements for the fiscal year ended June 30, 2019. Following the completion of the Company's financial closing process and the audit, it may report net revenues and gross profit margin for the fiscal year ended June 30, 2019 that could differ from the Company's expectations, and the differences could be material. While the Company believes that its expectations for its net revenues and gross profit margin for the fiscal year ended June 30, 2019 are based on reasonable assumptions, the Company's actual results may vary, and such variations may be material. Factors that could cause the Company's expectations to differ include, but are not limited to: (i) unanticipated adjustments in the calculation of, or application of accounting principles for, our net revenues or gross profit margin for such period and (ii) discovery of new information that affects the recognition of revenues or expenses for such period. Although Flux believes that the expectations, opinions, projections, and comments reflected in these forward-looking statements are reasonable, they can give no assurance that such statements will prove to be correct, and that the Flux's actual results of operations, financial condition and performance will not differ materially from the results of operations, financial condition and performance reflected or implied by these forward-looking statements. Undue reliance should not be placed on the forward-looking statements and Investors should refer to the risk factors outlined in our Form 10-K, 10-Q and other reports filed with the SEC and available at www.sec.gov/edgar. These forward-looking statements are made as of the date of this news release, and the Company assumes no obligation to update these statements or the reasons why actual results could differ from those projected.

FLUX POWER HOLDINGS ANNOUNCES A 1-FOR-10 REVERSE STOCK SPLIT

VISTA, Calif., July 11, 2019 (GLOBE NEWSWIRE) -- Flux Power Holdings, Inc. (OTCQB:FLUX), a developer of advanced lithium batteries for industrial applications including electric forklifts and airport ground support equipment (GSE), today announced a 1-for-10 reverse stock split of its outstanding and authorized stock, effective July 11, 2019 at 6:00 p.m. Eastern Time.

Beginning at the opening of the market on July 12, 2019, the Company's common stock will begin trading on a split-adjusted basis on the OTCQB under the symbol "FLUXD". The new CUSIP number for the common stock will be 344057 302.

At the effective time of the reverse stock split, every 10 pre-split shares of common stock outstanding was automatically combined into one new share of common stock without any action on the part of the holders. In addition, all options, warrants, and any other similar instruments convertible into, or exchangeable or exercisable for, shares of common stock were proportionally adjusted to reflect the reverse stock split. The reverse stock split also proportionately reduced the number of authorized shares of common stock and authorized shares of preferred stock. All fractional shares of common stock were rounded up to the nearest whole share. No fractional shares were issued as a result of the reverse stock split. Holders of fractional shares outstanding after the reverse stock split received one full share of post-reverse stock split share.

As a result of the reverse stock split, the Company's issued and outstanding common shares has been reduced to approximately 5.1 million (from approximately 51 million) and its total authorized shares has also been proportionally reduced. The par value of the common stock was not affected by the reverse stock split.

The reverse stock split of the Company's authorized, issued, and outstanding common stock was approved by the Company's Board of Directors on June 28, 2019.
