### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF PLAN OF OPERATIONS

The Registrant was incorporated on September 21, 1998, in the state of Nevada under the name Oleramma, Inc. Oleramma, Inc. was incorporated to transact any lawful business. The Company originally hoped to develop a genetically engineered type of Pima cotton seed with a gene that contains a virus fatal to the pink bollworm, a leaf-munching pest that can destroy cotton fields. The Company's initial test results were not positive, and the Company subsequently changed management and control of its stock to a different group.

Under its new name, BuckTV.com, Inc., the new management and ownership of the Company has developed a new principal business strategy for the Company to market consumer products through an Interactive WEB site, based on an auction format, utilizing the talents and abilities of Mr. Buck Hunter, a major shareholder in, and a Director of, the Company, who is also a well-known radio and television personality.

This WEB site will be promoted through the Cable Radio Network, various search engines, through other Web sites, marketing its site to businesses/customers through e-mail, online media, and other marketing and promotional efforts.

There can be no assurance that brand promotion activities will yield increased revenues or that any such revenues would offset the expenses incurred by the Company in building its brands. Further, there can be no assurance that any new users attracted to BuckTV will conduct transactions over BuckTV.com on a regular basis. If the Company fails to promote and maintain its brand or incurs substantial expenses in an attempt to promote and maintain its brand or if the Company's existing or future strategic relationships fail to promote the Company's brand or increase brand awareness, the Company's business, results of operations and financial condition would be materially adversely affected.

#### Going Concern -

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has no current source of revenue. Without realization of additional capital, it would be unlikely for the Company to continue as a going concern.

10

Loss/Earnings Per Share - Earnings per share is computed using the weighted average number of shares of common stock outstanding.

## Results of Operations

As of June 30, 2000, being a developmental stage Company, the Company has yet to generate any revenues. In addition, the Company does not expect to generate any revenues over the next approximately to six (6) months. During the Second Quarter, the Company had no expenditures as compared to a net loss of \$4,039 for the same period last year. The Directors of the Company provided their services to maintain the operations of the Company at no cost to the Company. The Company does not have any material commitments for capital expenditures.

## Plan of Operation

The Company has not achieved revenues or profitability to date, and the Company anticipates that it will continue to incur net losses for the foreseeable future. The extent of these losses will depend, in part, on the amount of growth in the Company's revenues from sales of its products, and possibly from advertising revenues on its Web site. As of June 30, 2000, the Company had an accumulated deficit of forty-eight thousand eight hundred seventy-six (\$48,876) dollars. The Company expects that its operating expenses will increase significantly during the next several months, especially in the areas of sales and marketing, and brand promotion. Thus, the Company will need to generate increased revenues to achieve profitability. To the extent that increases in its operating expenses precede or are not subsequently followed by commensurate increases in revenues, or that the Company is unable to adjust operating expense levels accordingly, the Company's business, results of operations and financial condition would be materially and adversely affected. There can be no assurances that the Company can achieve or sustain profitability or that the Company's operating losses will not increase in the future.

11

## Liquidity and Capital Resources

Additionally, the Company sold Thirty-eight Thousand Three Hundred Sixty Dollars (\$38,360) or Seven Hundred Sixty-seven Thousand Two Hundred (767,200) shares of the Common Stock of the Company during the Offering to approximately fifty-six (56) shareholders in the State of Nevada. #### Forward-Looking Statements

This Form 10-QSB includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included or incorporated by reference in this Form 10-QSB which address activities, events or developments which the Company expects or anticipates will or may occur in the future, including such things as future capital expenditures (including the amount and nature thereof), finding suitable merger or acquisition candidates, expansion and growth of the Company's business and operations, and other such matters are forward-looking statements. These statements are based on certain assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results or developments will conform with the Company's expectations and predictions is subject to a number of risks and uncertainties, general economic market and business conditions; the business opportunities (or lack thereof) that may be presented to and pursued by the Company; changes in laws or regulation; and other factors, most of which are beyond the control of the Company.

This Form10-QSB contains statements that constitute "forward-looking statements." These forward-looking statements can be identified by the use of predictive, future-tense or forward-looking terminology, such as "believes," "anticipates," "expects," "estimates," "plans," "may," "will," or similar terms. These statements appear in a number of places in this Registration and include statements regarding the intent, belief or current expectations of the Company, its directors or its officers with respect to, among other things: (i) trends affecting the Company's financial condition or results of operations for its limited history; (ii) the Company's business and growth strategies; (iii) the Internet and Internet commerce; and, (iv) the Company's financing plans. Investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements as a result of various factors. Factors that could adversely affect actual results and performance include, among others, the Company's limited operating history, dependence

on continued growth in the use of the Internet, the Company's inexperience with the Internet, potential fluctuations in quarterly operating results and expenses, security risks of transmitting information over the Internet, government regulation, technological change and competition.

Consequently, all of the forward-looking statements made in this Form 10-QSB are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by the Company will be realized or, even if substantially realized, that they will have the expected consequence to or effects on the Company or its business or operations. The Company assumes no obligations to update any such forward-looking statements.
