NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

NOTE 1 BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order to make the financial statements not misleading have been included. Results for the three months ended March 31, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. For further information, refer to the financial statements and footnotes thereto included in Australian Forest Industries' annual report on Form 10-KSB for the year ended December 31, 2004.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

It should be noted that this Management's Discussion and Analysis of Financial Condition and Results of Operations may contain "forward-looking statements." The terms "believe," "anticipate," "intend," "goal," "expect," and similar expressions may identify forward-looking statements. These forward-looking statements represent the Company's current expectations or beliefs concerning future events. The matters covered by these statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those set forth in the forward-looking statements, including the Company's dependence on weather-related factors, introduction and customer acceptance of new products, the impact of competition and price erosion, as well as supply and manufacturing restraints and other risks and uncertainties. The foregoing list

should not be construed as exhaustive, and the Company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements, or to reflect the occurrence of anticipated or unanticipated events. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation that the strategy, objectives or other plans of the Company will be achieved. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

RESULTS OF OPERATIONS

We are currently in the second year of operations and have generated significant revenues to date. Our activities from inception to date were related to our formation, preparation of our business model, arranging and planning financing and the acquiring all rights, title and interest to our timber rights located in the Canberra region in addition to the implementation and construction of our first sawmill also in the Canberra region.

LIQUIDITY AND CAPITAL RESOURCES

On March 31, 2005 and December 31, 2004 we had current assets of \$4,655,478 and \$3,736,404, respectively.

Net cash used in operating activities for the three months ending March 31, 2005 was \$(1,676,742). Net cash used in operating activities for the period from inception to March 31, 2004 was \$4,709. The decrease in net cash was a result of an increase in payments to suppliers and employees of \$1,038,904 which was a consequence of our growing business and the addition of a significant number of employees.

In the three months ending March 31, 2005, the Company experienced an increase in net cash provided by financing activities of \$1,255,286 as a result of the reduction of payments related to a long term timber supply contract in the amount of \$849,705 as well as loans to related parties of \$241,096.

The Company is presently commencing construction of a second sawmill in Bombala NSW in the third quarter of 2005 and it is anticipated to be operational in the third quarter of 2006. Such sawmill will be used primarily for processing the logs resulting from the Bombala Agreement which was entered into in 2004.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the appropriate application of certain accounting policies, many of which require estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates.

5

Management believes application of accounting policies, and the estimates inherently required by the policies, are reasonable. These accounting policies and estimates are constantly re-evaluated, and adjustments are made when facts and circumstances dictate a change. Historically, management has found the application of accounting policies to be appropriate, and actual results generally do not differ materially from those determined using necessary estimates.

Item 3. Controls and Procedures.

(a) Our principal executive officer and principal financial officer have each evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) as of a date within 90 days prior to the filing date of this quarterly report and have each concluded that our disclosure controls and procedures are adequate.

(b) There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
